

Exercise 1: Using an API

The goal of this exercise is to familiarize your self with APIs by using the Google API. Your Google API must do something you find interesting. As an example, see

Page rank calculation
www.mypagerank.net

Google smackdown
<http://www.onfocus.com/googlesmack/down.asp>

You will be placed in teams of 2, 2, 3. You will demo your API in class and write at least a brief 2 page summary of how it works and what it does.
